OVERVIEW

At the Marshfield Clinic Health System YMCA, we give kids an opportunity to make new friends, have new experiences, and enjoy the kind of learning and exploration they just can't get in the classroom. Our youth programs focus on three simple things:

Quality Staff - Role models who you can trust to keep your child safe, while encouraging all kids to broaden horizons through learning, play, and socialization.

Flexibility - We offer choices for both you and your child. We want you to be able to choose the days you need and activities that meet your needs and your child's interests.

Experiential Learning - Activities that get your child outside exploring the world around them. We believe that play is one of the best ways to grow and learn.
